tinker[tech]

We are a global digital product development company that designs & builds software for the world's best businesses.

tinker[tech]

ABOUT US

We love taking products from vision to reality.

We partner with businesses looking to harness the value of digital, helping them to discover, design, develop and scale exceptional digital experiences that deliver measurable and profitable results.

We are on a mission to become a trusted partner of businesses around the world. We're proficient in helping partners to create their products from scratch to millions of users.

SERVICES

1)   Mobile App, Websites and Backend Development

We have been on the front line of mobile development for years and have seen it transform everything from personal behavior to industry trends. We build mobile apps for businesses that embody this change.

2)   Interface Design

Interface design has always been our strong point. Great backend must have a Beautiful frontend.

3)   App Audit and consulting

An audit allows us to identify and analyze weaknesses and get a set of measures that can be taken to correct. It includes the following types of checks: Feature, Usability, Capability, Quality, Security.

WE WORK WITH

— Series A+ Startups

— Businesses

— Digital Agencies

* series A+ startups get 15% discount.

2 months

Our team have created a car sharing service(full cycle) with over 100k users in 2 months. Our client was insanely grateful, as the time commitments before the investors were present.

Check it out https://prime.anytime.global

ANYTIME PRIME

WE HELPED DELIMOBIL AND ANYTIME TO CREATE A BRAND NEW CAR SHARING SERVICE AND RENOVATED THE IT INFRASTRUCTURE.

We worked on UI/UX design and identity, 2 clients apps, 1 service app, admin panel, backend, kyc platform.

Successfully shipped in 2 months.

Launched in Moscow

Launching in St Petersburg, Warsaw, June 2019

Full cycle

At anytime prime, we have integrated over 20+ external services for kyc/analytics/messaging/telematics/ a lot more

30+ projects

As co-founders, we worked on 30+ apps shipped to the App store. Zhanserik as ex-CTO of ZeroToOneLabs and Eugene as Product manager.
